

VISHESH JADHAO

BE Computer Engineering | Data Analyst | Full Stack Developer

visheshjadhav007@gmail.com | github.com/vishesh1405-bit

PROFESSIONAL SUMMARY

Computer Engineering student with hands-on experience in Python, SQL, data analytics and web development. Built a full-stack Library Fine Collection Analytics application using Flask, SQLite and Chart.js, with dashboard visualizations, data management and fine forecasting. Interested in entry-level Data Analyst and Full Stack Developer roles.

TECHNICAL SKILLS

Programming	Python, JavaScript, SQL
Data Analytics	Pandas, NumPy, Matplotlib, Power BI, Excel
Web Development	HTML, CSS, JavaScript, Flask
Database	MySQL, SQLite
Tools	Git, GitHub, VS Code

EXPERIENCE

Data Analytics Intern — Techno Growth | Jan 2026

- Worked in a data analytics internship environment, developing practical exposure to data analysis tools and workflows.

PROJECTS

Library Fine Collection Analytics

Tech: Python, Flask, SQLite, Chart.js, HTML, CSS, JavaScript

- Developed a web-based dashboard for managing and analyzing library fine and student data.
- Implemented visual analytics including fine collection trends, top defaulters and summary metrics.
- Added search/filtering, CSV export, role-based login, student/fine management and a moving-average fine forecast.
- Live Demo: library-fine-collection-analytics.vercel.app

Vruksha Vani AI

- AI-focused academic/project work. Detailed technology stack and live repository link can be added when finalized.

EDUCATION

BE — Computer Engineering | Samarth College of Engineering and Management, Belhe | Savitribai Phule Pune University (SPPU) | Expected 2027

ADDITIONAL

- Career interests: Data Analytics, Full Stack Web Development and applied AI.
- Portfolio: Personal portfolio website with projects, resume and contact information.
